GLADIOLI

FOR FORCING AND OUTDOOR PLANTING

Gladiolus Bulbs grown on our rich, sandy soils produce high-crowned, vigorous stock from which highest results may be expected.

Varieties marked with a (*) are good for forcing. Use only First size bulbs for forcing. Plant after January 15th. For cold frame planting use either first or second size bulbs.

Terms: 100 bulbs of one variety at per 1,000 rate.

3% for cash with order; 2% in ten days; net 30 days.

BUXUS SEMPERVIRENS WELLERI

A FIELD OF THREE-YEAR-OLD WELLERI

BOXWOOD—Weller's Hardy Northern Type

BUXUS SEMPERVIRENS WELLERI

Hardiest Boxwood on the market.

The satisfaction of Buxus Welleri as the hardiest Boxwood on the market is well established, for they have been planted in every section of the country and repeat orders and unsolicited expressions from customers make us happy to continue to offer them to you for the coming seasons.

We are especially happy to promise a more liberal supply for hedging. Do not confuse with the Suffruticosa variety. Welleri has much better foliage and it grows faster, thus making a quicker and better hedge and still it may be trimmed and kept low and dense to any size in dwarf hedge form or edging.

BUXUS SEMPERVIRENS WELLERI (Weller's Hardy Northern Type) Without Ball (Bare Roots)
